Patient Navigator Program
A New Resource From the Townshippers' Association

Have you ever left a medical appointment feeling more confused than when you arrived? Maybe the doctor spoke too quickly. Maybe there were medical terms you didn't understand. To that, add the fact that it is all happening in your second language. This is the reality for many English-speaking Quebecers. While English-speaking Quebecers have the right to receive health and social services in English, in practice, access is not always guaranteed.

Sometimes all that's needed is someone to help bridge that gap and ensure everyone is on the same page. For many English-speaking residents in Estrie, navigating Quebec's healthcare system can feel overwhelming, stressful, and sometimes even isolating.

That is why the Patient Navigation Network (PNN) exists.

Townshippers' Assocation's Patient Navigator is a free service that can help individuals prepare for their upcoming appointments, communicate their concerns, and accompany them during their appointments.

Getting started is simple and completely free. Contact Isabelle Bazin by email at patientnavigator@townshippers.org, or call/text 819 349-4972.
Office hours are Monday to Wednesday.

Healthcare can be complicated, but finding support shouldn't be.
